A pleasant Dittie, wherein is described, what falsehood oftentimes is found in felowship, verified by a concetous minded man, who labouted to deceive his deere freende, but yet deceived himselfe in the ende,

This Dittie may be fung to the note of the Spanish Pauin.

Tono freends that had a flocke of Cozne, one daie did part it equally:
But left it in the Garner Kill,
for want of other remedie,

One of them thought his freende had most, inhich caused him discourteously:

To seeke to steale it thence, not minding freendly am itie.

This freend that not mistrusted him, bid walke about his busines:
The other to the Garner comes, to make assure his crastinesse.
And on his freends heape cast his cloake, least he should misse of his deuise for he that steales in the barke, may be deceived twise.

The being gone, within a while, the other partner thether came:
Who sking his freends cloake on his heape, did bery kindly take the same.
Thinking his freend had left his Cloake, to same his postion from the dust:
Therefore he thought again, to them his freendhip inst.

Because he would deceive his freend,
he was content the halfe to lose:
They being thus agreed,
the These then with him goes.

T This falle freend groped in the barke, to find the heape his Cloake lay on:
And indging it had beene his friends, became a Theefe unto his owne.
Betweene them they connaied it thence, eche to his house where he did dwell:
Thus was the man deceive, the Theefe he sped full well.

Apert morning both the partners came, according as they were agreed:
Unto the Garner for their Corne, to carry it thence away with spece.
But when the falle freend saw the heape, and how himselfe he had becein de:
We will not what to say, his witts were nie hereau de.

This partner carried thence his Come, and he went home full heavily:

Sorting them earnestly what he did lacke:

At last of all the best he made a packe.

The god man of the house lay in his Bedde, And heard how fast his gods absoade were spread. De thought to let the These take his owne pleasure, And so to fill his bagge at his owne legsure. And when he suddainly should packe away ; Then would be mantulise cause him to stay.
